DETAILED ACTION

Priority

Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-2 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The claimed limitation of “wherein the fourth external folding and the fifth reversed folding extend from bellow to the end of their respective chamfers” renders the scope of the claim indefinite since “below” is a relative term, it is not clear the fourth and fifth folding extend below what part of the rib. Furthermore, the claimed limitation of “they connect its two vertical walls” renders the scope of the claim indefinite since it is not clear what is “they” and what is “its”. It is not clear whether applicant is claiming that “they” is the second, third, fourth and fifth foldings or just fourth and fifth folding. Also it is not clear whether applicant is claiming that the vertical walls belong to it, which is first or second or third or fourth or fifth folding.

In view of the clarity issue above, the examiner is unable to determine whether the claims are new or inventive.
